NEW RELEASES

Nederlands waterrecht voor niet-juristen

Dit boek biedt een algemene inleiding op het Nederlandse waterrecht voor niet-juristen. Het behandelt niet alleen het huidige waterrecht, maar ook hoe dit tot stand komt en wat het belang voor de praktijk van het waterbeheer is. Alle aspecten van het waterbeheer komen hierbij aan bod: de...

👤 Erik Mostert

Building Information - Representation and Management: Fundamentals and Principles

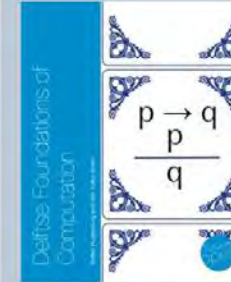

The book presents a coherent theory of building information, focusing on its representation and management in the digital era. It addresses issues such as the information explosion and the structure of analogue building representations to propose a comprehensive approach to the...

The Delft Sand, Clay & Rock Cutting Model

In dredging, trenching, (deep sea) mining, drilling, tunnel boring and many other applications, sand, clay or rock has to be excavated. This book gives an overview of cutting theories. It starts with a generic model, which is valid for all types of soil (sand, clay and rock) after which the...

👤 Sape A. Miedema

Delftse Foundations of Computation

Delftse Foundations of Computation is a textbook for a one quarter introductory course in theoretical computer science. It includes topics from propositional and predicate logic, proof techniques, set theory and the theory of computation, along with practical applications to computer science...

		manner.		
People & Community	We challenge our students and staff to get the best out of themselves and provide them with the necessary support to do so.	We support students and staff members to co-create and deliver solutions to community concerns.	We create stronger engagement with our alumni and people from the surrounding area; together, we build a 'TU Delft community for life'.	We are convinced of the importance of diversity, as a cornerstone for innovation. We aim to integrate internationalisation in all our core activities.
Campus & Services	We develop excellent, user-friendly and efficient services.	We develop the campus as a multi-partner 'Living Lab' in which education, research and innovation contribute to solving societal challenges.	We gear our facilities and services to our aim to make a sustainable and responsible contribution to the region, the Netherlands and the world.	We develop our campus in such a way that we are more welcoming to interested people from the near surroundings.

Onderwijsdoelen met open

- Adopteren en aanpassen van open lesmaterialen.
- Publiceren met open licenties.
- Embedden van 'open education' in BKO.
- Commerciële textboeken vervangen.

Searching & Resources

Searching & Resources will help you search efficiently and effectively.

- In [Making a search plan](#) you will learn how to design your search to find what you need.
- In [Search operators](#) you will learn how to perform your search and, if necessary, how to adjust it.
- In [Evaluating search results](#) you will learn how to critically assess your search results to decide if they are what you need.
- In [Setting up alerts](#) you will learn to keep up-to-date with new developments and publications.
- In [Resources](#) you will learn where to search for which type of information

Wat horen wij?

“Studenten brengen hun boeken niet mee naar college”

“I do not buy textbooks anymore”

“Ik wil een boek schrijven wat een alternatief is op de cursusliteratuur”

“I just use the reader / college notes to study”

“Ik wil andermans materialen gebruiken in mijn cursus”

Wat bedoelen zij eigenlijk?

Docent

- *Commerciele onderwijsliteratuur is te statisch*
- *Commerciele onderwijsliteratuur sluit niet aan op mijn onderwijs*
- *Mijn onderwijsliteratuur werkt beter*

Student

- *Ik wil niet betalen voor mijn onderwijsliteratuur*
- *De onderwijsliteratuur is niet gebruikersvriendelijk*

The Delft Sand, Clay & Rock Cutting Model

In dredging, trenching, (deep sea) mining, drilling, tunnel boring and many other applications, sand, clay or rock has to be excavated. This book gives an overview of cutting theories. It starts with a generic model, which is valid for all types of soil (sand, clay and rock) after which the...

Sape A. Miedema

Mechanics and Relativity

In Mechanics and Relativity, the reader is taken on a tour through time and space. Starting from the basic axioms formulated by Newton and Einstein, the theory of motion at both the everyday and the highly relativistic level is developed without the need of prior knowledge. The relevant...

Timon Idema

Responsible innovation: From MOOC to book

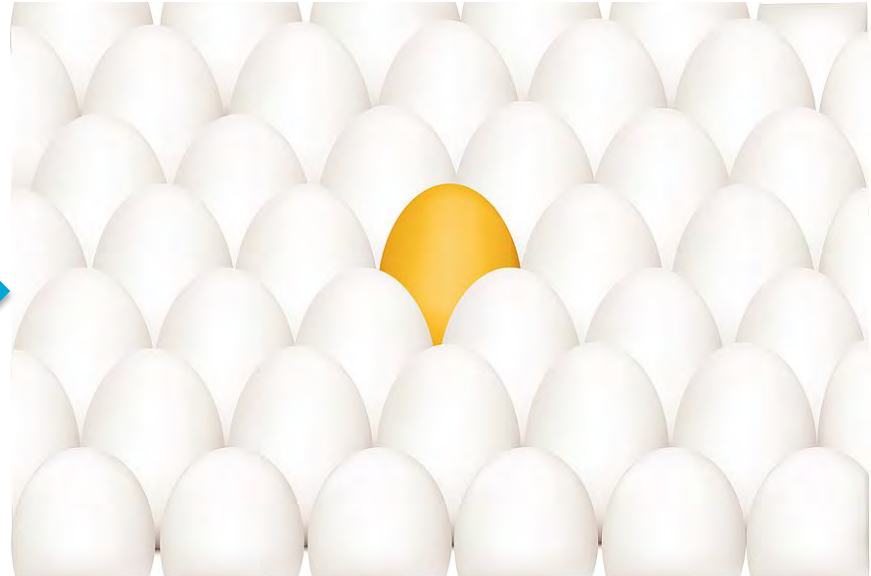

Innovation may bring a lot of good to society, but innovation is not a good in itself. History provides many examples of innovations and new technologies that have had serious negative consequences, or that just failed to address significant problems and make meaningful contributions...
